Metronet Embed Facebook posts

Published August 9th, 2013 under [Plugins](#)

Embedding Facebook posts was only made possible recently. Facebook does not provide a simple, easy to use system for handling embed codes.

Customizer link

Published August 2nd, 2013 under [Plugins](#)

The customizer link plugin has been rolled into the core of WordPress version 3.6. You should uninstall the plugin as it no longer serves any purpose.

[@dinicmilan](#) Yeah, JavaScript is how I was thinking of doing it. By checking browser width. [12:59:30 PM August 13, 2013](#) [in reply to dinicmilan](#)

RT [@metronet](#): Facebook embedded post for WordPress! [@ryanhellyer](#) has made a WP plugin for Facebook embedded post <http://t.co/YXwabPVJQg> [12:58:53 PM August 13, 2013](#)

[@dinicmilan](#) Do you think it should load for mobile devices? I was wondering if mobile devices might be better off serving the raw image. [12:00:13 PM August 13, 2013](#) [in reply to dinicmilan](#)

Venus Williams

Unfortunately, I will not be able to participate in Wimbledon. I am extremely disappointed as I have always loved Wimbledon but I need to take time to let my back heal. I look forward to the courts as soon as possible, with my goal being to play for the World Team Tennis on July 8th in Washington DC. Thank you fans for the love and support and I will be seeing you on the courts.

- Time suck

The screenshot shows the Facebook Developer console interface. At the top, there is a search bar for 'Search Facebook Developers' and navigation links for 'Docs', 'Tools', 'Support', 'News', and 'Apps'. The user profile 'Ryan Hellyer' is visible in the top right corner. The main content area is titled 'Apps > EmbedPostsInWordPress' and includes buttons for 'Edit App' and '+ Create New App'. A yellow warning banner states 'You have a pending developer request.' Below this, there are sections for 'Settings' (with an 'Edit Settings' link), 'Developer Alerts' (with a 'See all' link and a message 'You do not have any developer alerts.'), and 'Insights' (with a 'See all' link). The 'Insights' section displays two columns of data: 'Users' with '0 Daily new users' and '0 Daily active users', and 'Sharing' with '0 Daily content shared' and '0.00 Feedback per share'. At the bottom, there is a 'Roles' section (with an 'Edit Roles' link) showing 'Administrators' with a profile picture of Ryan Hellyer. The footer contains links for 'About', 'Advertising', 'Careers', 'Platform policies', and 'Privacy policy'.

Metronet Facebook Embed posts

The solution to all Facebook embed problems :)
